

SEMCO SHAPING MACHINES

SH350 - 1000

Machine Tool Exporters to the World since 1940

SEMCO SHAPING MACHINES

SH350 - 1000

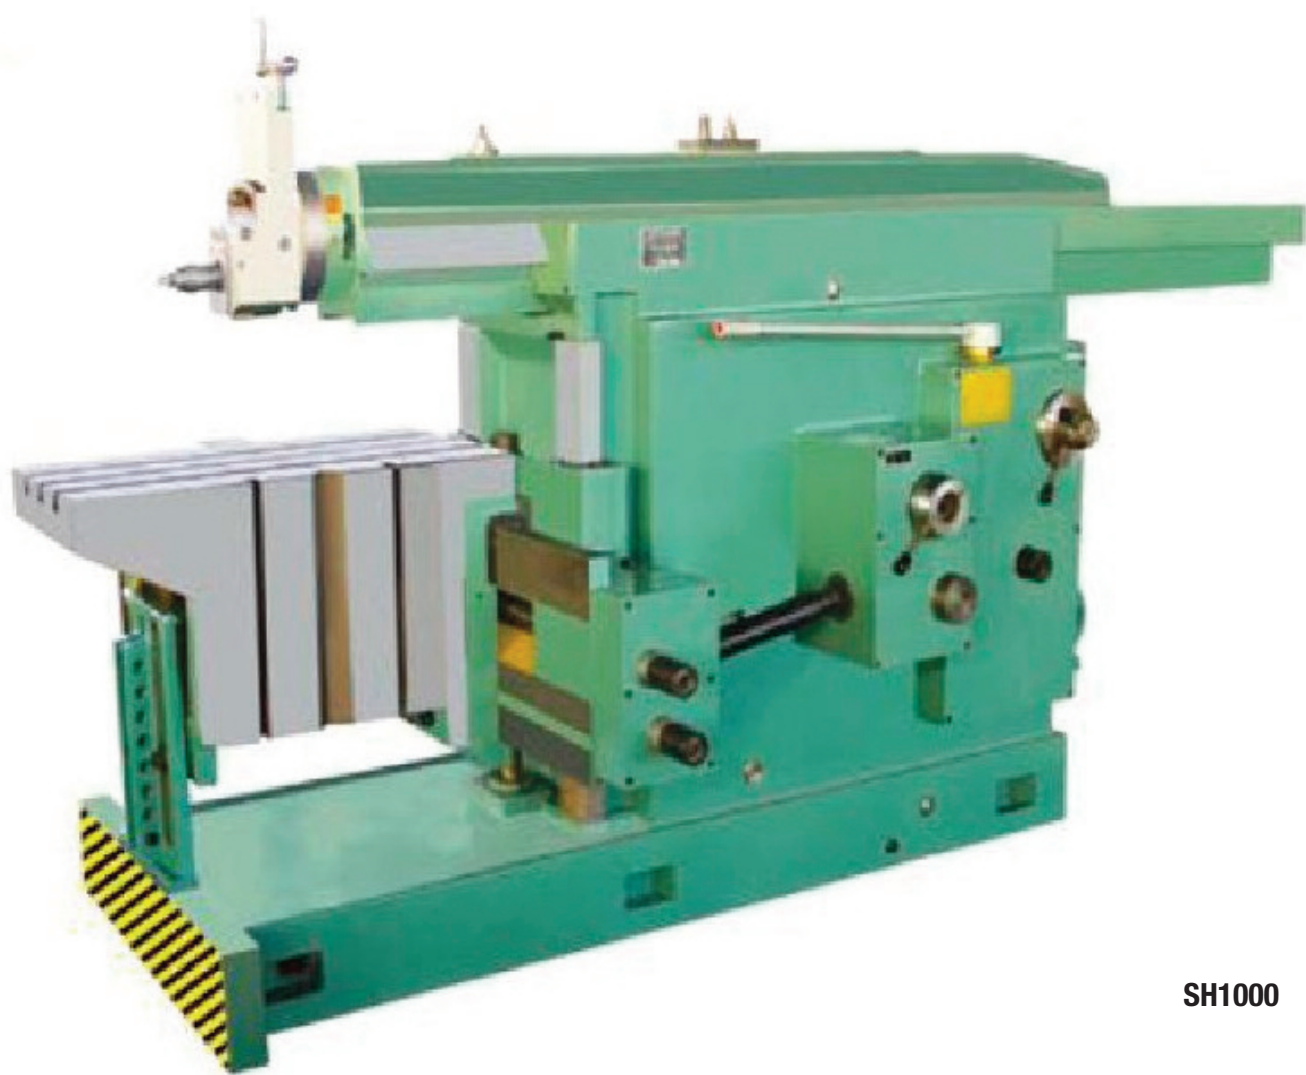

The shaping machine has been used in workshops for a very long time. Used in tool rooms and workshops for making shapes that are hard on other machines. So it has many uses, including slotting, keyways, grooves or blocking out. The shaper is a single point tool machine that reciprocates back and forth taking a cut on each pass. Making it easy to use and understand when making shapes. Available in a range of sizes these machines are a must in all workshops around the world. So give us a call today to discuss your needs. CE & CA Marked.

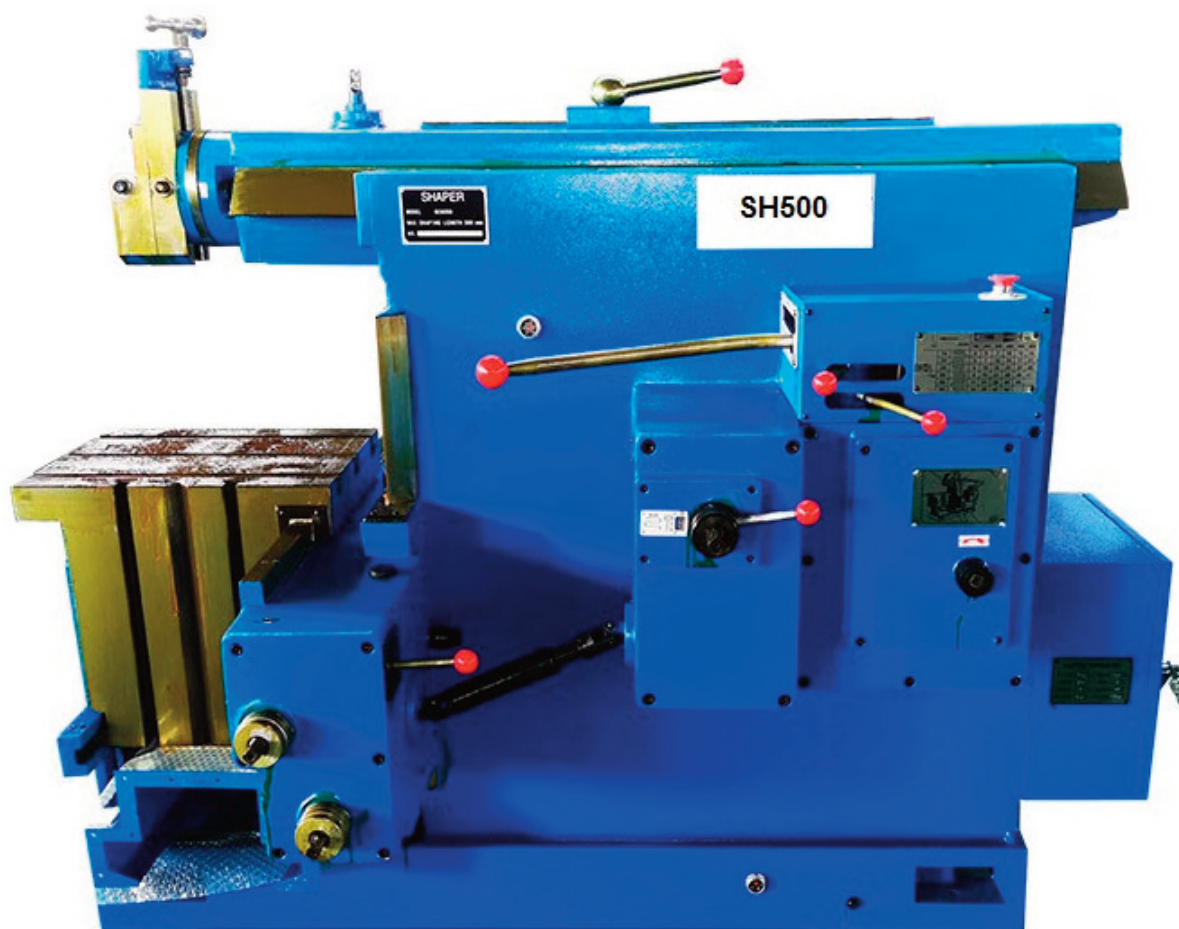

SH350
